AMC. We're setting new standards in cleaning.

Protecting wellbeing for nearly 35 years.

We have decades of experience providing quality cleaning and specialist disinfection services. Over this time, we've learnt how critical it is to keep staff and students healthy and able to attend school without disruption.

Our experience makes us agile.

With proven expertise in a variety of primary and secondary school environments, we understand the role and responsibility of looking after the growth and development of youth. We offer an extensive and structured range of cleaning services to enable staff and management to serve with greater efficiency and effectiveness.

Consistent excellence.

To provide you with peace of mind, we've developed a unique Operations Excellence Model to make sure our team understands their roles and responsibilities across a multi-layered service structure.

Real-time performance management.

To make sure you're happy with our cleaning service, we have an online auditing and performance management system that provides prompt identification of issues, efficient resolution and transparent real-time reporting at all sites.

Protecting the wellbeing of our planet.

We continually strive to improve our environmental performance through the systematic management of products, equipment and processes.

AMC. Helping your school meet the grade.

Adapting to a modern learning environment. Keeping staff and students healthy to avoid illness is a big challenge when learning involves close interactions. That's why we created PROTECT+, a cleaning service that goes above and beyond the recommended benchmark for educational cleaning standards.

PROTECT+ goes above and beyond educational cleaning standards.

What it means to PROTECT+

Since the pandemic, specialised school cleaning methods have become critical in the management of a school's facilities. While a regular cleaning routine with a focus on high-use areas is the base of our programme, targeted disinfection of surfaces vulnerable to cross-contamination and high-traffic common areas is essential.

A specialised school cleaning team.

For added peace of mind, you will get the highest level of care for your staff and students. Your cleaning team is police-checked, fully vaccinated and specifically trained in our PROTECT+ cleaning services.

Keep your team at the top of their game.

Illness can cause staff to take sick days, which means having to organise substitute teachers and juggling timetables. This can disrupt students' attention and slow down their progress.

Trusted local sector experience.

All our personnel undergo thorough background and police checks.

We're committed to doing things right.

We maintain a strong commitment to our planet and its future, striving for continual improvement wherever possible. This includes minimising waste, recycling where possible, using biodegradable cleaning products and maintaining an environmental reporting system. We source ethically through Wirrpanda Supplies and Who gives a crap and drive social change by supporting Wallara and Children's Cancer Institute.

We are also committed to creating better futures for people. We promote inclusive workforces with respect for diversity of race, gender and abilities. We also take a firm stance against modern slavery, with special policies to protect people from exploitation.

To improve hygiene practices in workplaces we collaborate with Ecohygiene, who are supporters of change makers One Girl. Ecohygiene is also a member of 1% for the planet, a global network of businesses tackling our planet's most pressing environmental issues.

Proudly supporting
Children's Cancer Institute.

Protect the wellbeing of your staff, students and parents today. Call AMC Commercial Cleaning. We'd love to hear from you!
